

Write, verify and deliver in one place

Creative and academic writing with an AI advisor that keeps your voice.

Writing is no longer the hard part

- Tools produce text in seconds.
- Holding it up is hard: real sources, your own style, a deliverable format.
- And a new question: how do I prove I wrote this?

A complete writing studio

- A distraction-free space to write, check, typeset and publish the work.
- Novel, poetry, theatre, screenplay, essay, paper and thesis in one place.

The editor and nothing else

- Chapters, focus mode and a daily word goal.
- Version history and autosave.
- Dictation and read-aloud.
- Project templates ready to start.

Literary advisor and co-author

- Manuscript diagnosis with scores and applicable suggestions.
- A co-author that continues the scene without changing your tone.
- Continuity checks on characters, places and timelines.

Style DNA

- Measures your style and applies it to everything the AI writes.
- Dedicated analysis per genre and subgenre, with forensic depth for flash fiction.
- Public-domain author corpora gathered from the web.
- Reusable style templates across projects.

Real sources, never invented

- OpenAlex and Crossref search, open access and validated DOIs.
- PDF library with questions answered from your own papers.
- APA, MLA, Chicago, Vancouver and IEEE; Zotero, BibTeX and RIS.
- Evidence panel and unsupported-claim checker.

Prove you wrote it

- Originality and AI-text detection.
- AI footprint declared inside the work itself.
- Authorship proof: signed match against your style DNA, with a report.
- Your university's rules applied to the document.

Theatre and screenwriting

- Standard screenplay format with pages, minutes and cast.
- Fountain and Final Draft (FDX), import and export.
- Full scene generator with action and dialogue.
- Scenes synced to the visual canvas.

Board, series and canvas

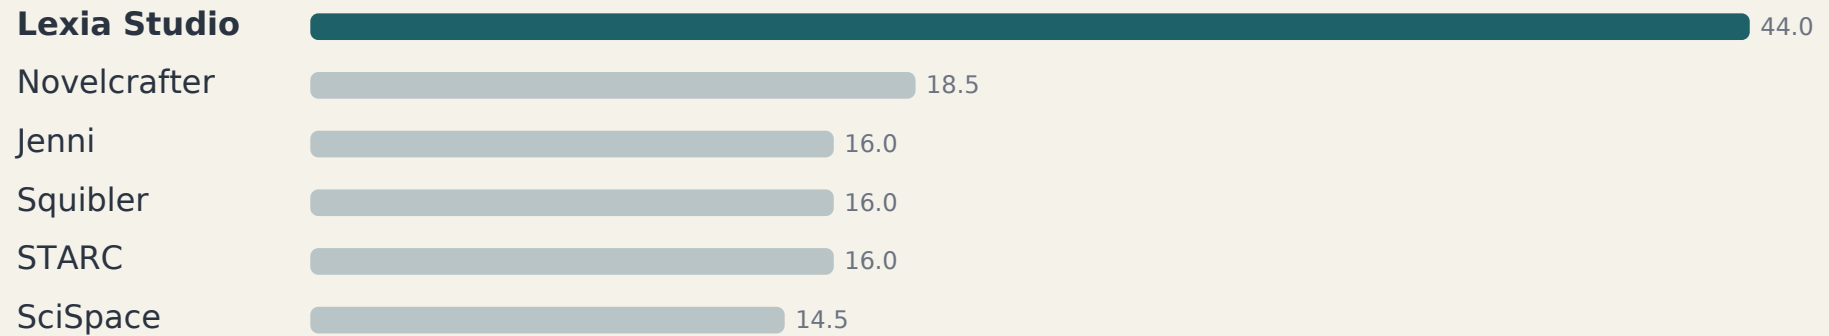

- Character and place cards with automatic mentions in the text.
- Plot board and timeline.
- Multi-book series sharing the same cards.
- Visual canvas with connections and generated scene art.

Ready for the university or the publisher

- Cover, contents, lists of figures and tables, correct pagination.
- Word, typeset PDF, LaTeX, EPUB and print.
- Team work with comments.
- Publishing with a DOI.

44 of 45 features covered

The next competitor covers 18.5.

- None of the eleven tools compared combines creative writing, academic work, screenwriting and typeset delivery.
- Alone in dictation and read-aloud, author corpora and DOI publishing.
